This matter comes before the Public Service Commission of South Carolina (the Commission) on the request of South Carolina Electric & Gas Company (SCE&G or the Company) for approval of an amendment to the contract for electric service between the Company and SMI Steel (formerly Owen Steel). The amendment is filed pursuant to 26 S.C. Code Ann. Regs. 103-303 and 103-804(Y)(2)(a) and (b).

The contract serves SMI Steel's plant containing its arc furnace located in Cayce, South Carolina. The contract is an Interruptible Service Agreement at a delivery voltage of 230kV.

The Office of Regulatory Staff has reviewed the amendment to the contract, and has no objection to it. According to ORS, SMI Steel's facilities represent a large industrial load requirement on SCE&G's system, and will be served under an Interruptible Service Agreement designed around the special characteristics of SMI's operations.
